# Your Wedding Planner

music & entertainment

**If you have a wide range of ages attending your wedding, you might like to have music that will get the different generations up and dancing. Let the musicians/DJ know what songs you would like played and what songs you absolutely don't want on the playlist. Also, consider having background music playing during dessert and other breaks.**

## things to consider

- The type of music you require (e.g. disco, live musicians, taped music, DJ or dance band).
- Special instructions (e.g. volume, tempo, type).
- Make sure that the venue has an entertainment licence.
- Check that the lighting and power supply is suitable.
- Check whether changing facilities will be required.
- When choosing a professional music/entertainer check their experience and references.
- Find out how much time is required for set up and dismantling.
